

## TECHNICAL NOTE

### CRYSTALBOND 509-S STRIPPER

- 1) Crystalbond 509-S Stripper is a metal-friendly solvent system that has a neutral pH and is non-ionic and non-reactive towards even the most reactive metals.
- 2) Crystalbond 509-S is not recommended at concentrated and elevated temperatures with the following materials:
  - Polyvinyl Chloride (PVC)
  - Polyester Ether
  - Hypalon
  - Styrenes (i.e. ABS & ASA)
  - Polyethylene Terephthalate
  - Nitrile Rubbers
  - Viton
  - Natural Rubbers
  - Neoprene
  - Polyurethane
  - EDPM
- 3) Crystalbond 509-S can be used with the following materials:
  - Polypropylene & Poly Olefins
  - Polyethylene (Low & High Density)
  - Teflon
  - Butyl Rubber
